

Environmental Awareness and Care

Looking after our Favourite Places

Although visitors to our favourite natural wonders can be beneficial to communities, there are a number of things to consider to help care for our environment. This activity provides an opportunity to discuss the impacts of people visiting our favourite places and how we can protect it for everyone to enjoy.

IMPACTS

When large numbers of visitors travel to a coastal attraction, what are the positive and negative impacts...

1) On the local community?

2) On tourism?

3) On the natural environment and biodiversity in the local area?

CARBON

FOOTPRINT

A lot of people would travel long distances to see the natural wonders around the world. This can leave a large carbon footprint. What would be the preferred way to travel to minimize carbon footprint?

Rate in order 1 to 10:

- 1) Walking ____ 2) Bicycle ____
3) Motorbike ____ 4) Petrol Car ____
5) Electric Car ____ 6) Minibus ____
7) Bus ____ 8) Train ____
9) Cruise ship or boat ____ 10) Plane ____

SOLUTIONS

What solutions would you suggest that would help care for the ocean, beaches and beautiful tourist locations, so everyone can enjoy them?
