Review Decision 22/04/2017	Personal Info Redacted Decision Upheld at Review	
A0063	03/04/2017	Business	Further to a letter to Mr. Vella, European Commissioner for the Environment, Maritime Affairs and Fisheries re the unsustainable fishing of non quota forage fish notably sprat - Sprattus sprattus – by pair trawling in Irish inshore waters I received a reply from Bernard Friess, Acting Director of DG MARE C citing: We have contacted scientists from the Marine Institute in Ireland, who have provided us with data and information on their research and surveys of sprat in Irish waters. These scientific reports do not suggest the need for a moratorium on sprat fishing at this time- Please supply all of the scientific evidence provided to the Minister in answering the question in the Dail including the scientific research (if any) into the spawning patterns of sprat in inshore waters	05/05/2017	Granted	
A0064	11/04/2017	Business	information under the AIE regulations. - For the species: Herring, Blue whiting, Horse mackerel, Mackerel, Boarfish and Albacore tuna. For the period 2012 to 2016 inclusive. 1. Can you please list any surveys of these species undertaken by the Marine Institute. 2. Can you please provide a reference to each survey. 3. Can you please estimate the cost of each survey and state how it was funded (national, EU, other source). 4. Whether any financial or other contribution (its approximate value) was sought from industry for any survey in the list - If so, from whom? 5. And whether any financial or other contribution (its approximate value) was made towards any survey by industry.	05/05/2017	Granted
